View product information of SRNE

Other functions

3.3 User Feedback

The image shows a mobile application interface for providing feedback. The screen is titled "Feedback" and has a status bar at the top showing the time as 10:40 and various system icons. The form consists of three main sections: "Name" with a text input field labeled "Please input your name"; "Contact" with a text input field labeled "We will serve you"; and "Feedback content" with a larger text area labeled "Please enter the content" and a character count of "0/140". At the bottom of the form is a prominent yellow "Commit" button. Two red annotations are present: one pointing to a "back" button in the top left corner, and another pointing to the "Commit" button.

Click it and go back functions setting

Click it to submit your feedback

Describe your feedback and we will serve you
